VOL. II. SAILING-VESSELS

The Characters used for Classification are:—

*⩓I Iron vessels built with thicker plating than Rules *now* require.

⩓I ⩓I ⩓I Iron Ships built according to Rules in force between 1864 & 1871.

A1 Iron vessels built for a special purpose.

A1 A1 ÆI Wood or Composite Ships.

The figure 1 affixed to a character signifies that the vessel is well and sufficiently equipped; a line after A (thus, A—) that the equipment is deficient from that required by the Rules.

A ring over the figure 1 (thus, ①) indicates defects in the masts or rigging of a Sailing ship imperilling the vessel's safety.

A *red* ring over the figure 1 (thus, ①) indicates defects reported in the engines and boilers of a steam ship imperilling the vessel's safety.

Classification of Underwriters' Registry.

A1* A1* A1 A1 A A Characters of Iron, Steel, or Composite Vessels built according to the Rules.

Vessels classed in Red have been built under inspection of Surveyors to Liverpool Registry.

The Classification Columns, when left blank, indicate Vessels never Classed.

In Col. 8 (Sailing Vessels), Col. 7 (Steamers) three dots ... indicate that the Vessel had a Class at one time, but it has been withdrawn at Owner's request.

In the same Column Lv signifies the classification of the Underwriters' Registry, and the letters *a*, *b*, *c*, &c., indicate the letters and equipment numbers in Table No. 22.

A black line with date under it in Classification Column (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Bk.; a red line with date (thus, 3,85), indicates that Class was withdrawn from non-compliance, at that date, with Society's Rules.

A date in Classification Column, without character, indicates that the Class has expired, or been withdrawn from absence of Survey, or non-payment of fees.

In Classification Column, the ✠ signifies that the vessel was built under Special Survey.

NOTE EXPLICATIVE CONCERNANT LE REGISTER.

1892-93.

NOTE EXPLICATIVE DES MARQUES DE CLASSIFICATION DANS LE REGISTER-BOOK.

CLASSIFICATION DU LLOYD'S REGISTER.

*⊕A1 ..... Cote des navires en fer, construits en tôles plus fortes que celles qui sont exigées par les réglements actuellement en vigueur.

⊕A1 ⊕A1 ⊕A1 Cote des navires en fer construits conformement aux réglements de la Société, en vigueur de 1864 à 1871.

A1 ..... Non précédé d'un chiffre, cote des navires en fer, construits pour un service spécial.

100A1 95A1 / 90A1 85A1 / 80A1 75A1 Cotes des navires en fer ou en acier, construits conformément aux réglements de la Société pour navires en fer, depuis 1869.

A1 ..... Cote des navires en bois et composites de la première classe, bien et suffisamment équipés. Les chiffres de la 5me colonne (Bateaux à vapeur) et de la 6me colonne (Navires à voiles), précédant cette cote, indiquent le nombre d'années pour lequel le navire est classé présentement; ainsi: 11A1, Cont. 6A1, Rest. 6A1, (voir la note pour Cont. et Rest.) Les chiffres placés dans la 7me colonne (Bateaux à vapeur) et dans la 8me colonne (Navires à voiles) indiquent les années expirées de la période de durée assignée à la cote originelle, si le chiffre est placé à la première ligne, et de la période de continuation, s'il est placé à une des lignes en-dessous.

A1 ..... Cote des navires qui ont dépassé la période de durée assignée à la cote par la visite originelle ou par celles de continuation ou de restitution, et des navires n'ayant jamais été cotés dans le Registre, mais qui sont reconnus propres au transport de marchandises sèches et périssables. Le nombre d'années pour lequel la cote A en rouge est assignée, est inscrit sous la cote dans la 5me colonne (Bateaux à vapeur) et dans la 6me colonne (Navires à voiles) ; ainsi : 8S.Ply.8-6yrs.

Æ1 ..... Cote des navires propres au transport de marchandises sèches et périssables pour de courtes traversées. Le nombre d'années pour lequel la cote Æ est assignée, est inscrit sous la cote, dans la 6me Colonne (Navires à voiles) ; ainsi : 8S. Ply. 8—4 yrs.

E1 ..... Cote des navires qui, lors de la visite, ont été reconnus propres au transport de cargaisons qui par leur nature ne sont pas exposées aux avaries d'eau.

Le chiffre 1 ajouté à la cote, indique que le navire est bien et suffisamment équipé. Un trait après la lettre A (ainsi : A—) signifie que l'équipement est défectueux d'après les prescriptions du réglement.

Un cercle à travers le chiffre 1, ainsi Ⓘ, indique des défectuosités signalées dans la mâture ou dans le gréement d'un navire à voiles, de nature à compromettre la sécurité du navire.

Un cercle *rouge* à travers le chiffre 1, ainsi Ⓘ indique des défectuosités signalées dans les machines et chaudières d'un Bateau à vapeur, de nature à compromettre la sécurité du navire.

CLASSIFICATION DU "UNDERWRITERS' REGISTRY."

A1⁂ , A1⁂ ..... Cotes des navires en fer ou en acier, dans la construction desquels on a surpassé le réglement et employé du fer de qualité supérieure.

A1* , A1*; A1 , A1; A , A Cotes des navires en fer, en acier, ou composites, construits conformément au réglement.

Les navires cotés en rouge ont été construits sous la surveillance des Inspecteurs du Liverpool Registry.

Les chiffres 1 et 2 ajoutés aux marques de classification, signifient la cote de l'équipement.

Les chiffres placés dans la 17me colonne (Navires à voiles) et dans la 16me colonne (Bateaux à vapeur) représentent le tirant d'eau moyen, correspondant à une immersion de 65, 70, 75 et 80 pour cent. respectivement, comme il est assigné dans le "Underwriters' Registry" ; mais ces tirants d'eau n'indiquent point les lignes de charge admises.

Tous les navires doivent être visités périodiquement. La *date de l'expertise* ne certifie que l'état des navires *à l'époque de la visite*.

N.B.—Afin d'éviter les mécomptes provenant de la déchéance de la cote d'un navire pour avoir négligé la visite, avis est donné par la présente, qu'il est du devoir d'armateurs capitaines ou agents, de demander les visites périodiques imposées par le réglement. Il en est de même dans le cas où des reparations sont devenues nécessaires par suite d'avaries ou pour une autre cause quelconque.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

***Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors cally (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery d at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be ed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors iodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery uired at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out der the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be rveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is reby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from her causes, rests with the Owners, Masters, or Agents.

*** Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The *Date of Survey* of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving *Notice of Periodical Surveys* required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.
